

How WEEE Recycle Your Batteries...

WEEE Recycle!

WEEE sort through all the old batteries and recycle them into different materials that can be used again. Recycled batteries can be used to make lots of new things such as new batteries, bicycles & even roads!

WEEE'll Bring Them!

WEEE Ireland will bring all the used batteries, in the Blue Box, to the factory for recycling.

Phew! I'm exhausted after all that. Time for some R&R... **Rest & Recycling**

Gather up your used batteries; Perhaps ask family & friends to help with your challenge... and remember, **every battery counts!**

Join in... Every battery **YOU** recycle counts!

WEEE need your old batteries! Return any old batteries for recycling in your local school to help us support LauraLynn! ...& it's good for the earth too!

Recycling waste batteries helps protect our **environment**

Lets Help Our Planet!

Battery recycling helps the environment & climate change. Recycling makes sure no bad chemicals escape into the environment.

Yay! I'm raising vital funds for **LauraLynn** Ireland's Children's Hospice!

The WEEE Ireland Blue Box!

Return all the used batteries you, your family & friends collected & pop them in to the **Blue WEEE Ireland battery box** at your school.

Recycle waste batteries to protect our environment and support **LauraLynn, Ireland's Children's Hospice.**

LauraLynn Ireland's Children's Hospice. Registered Charity Number 20154844.
